

Welcoming visitors in return for spend

Secret Stays™ are off-the-beaten track venues within our tours for a small number of campervans to stay overnight in return for custom at your business.

This might be a country pub asking for a dinner to be purchased, or a vineyard asking visitors to take up a tour in exchange for a night stay in their camper.

We are looking for more venues to add to our private tours - these are not advertised on a wider scale! You don't need facilities as they are on the van already - just a relatively flat space on your premises.

You have full control of the parameters at all times. See below for more details.

Permissions in England extended to Dec 2021

- Due to the popularity of staycations during the pandemic the Government have extended the pop-up site permissions. This means any stays are likely to fall under this extension.
- Landowners in England have been given the green light to open a "campsite" for 56 days pr/yr year without planning permission until 31 Dec 2021.
- The exemption has allowed 100's of landowners - from farms and stately homes to racecourses and showgrounds - to capitalise on the booming outdoor accommodation sector in 2020. Would you like to work with us and join them?

How to be included

Just a "yes" from you will be enough for us to include you in the appropriate area tour with a 'default listing' of "Call in advance. Maximum 2 units. 1 night only."

Tailor your listing:

A specific telephone number rather than main line? No need to call in advance?
Detail of charge or purchase (meal / tour / shop purchase value). Any facilities?
Limited seasonal or opening times? Short description (20 words max).
